Art Unit: 1652

Applicant's election of Group I, Claims 1-8, 14, 20, and 25 in Paper No. 11 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 9-13, 15-19, 21-24 and 26 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made without traverse in Paper No. 11.

Claims 1-8, 14, 20, and 25 are generic to a plurality of disclosed patentably distinct species comprising nucleic acids having at least 80% identity to SEQ ID NO:1 and comprising one of the oligonucleotide sequences specifically recited in Claim 3, parts a)- r) i.e., SEQ ID NOS:6-17 and the 9-mers of parts e)-h), o), p), and r) (which do not have specific SEQ ID NOS associated therewith). Each of these oligonucleotide sequences is different and would require separate search. Such a search would be unduly burdensome and require an inordinate expenditure of PTO resources for simultaneous examination of each sequence. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or

Art Unit: 1652

identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
